published as basic, intermediate, advanced, update, or overview, so that participants may determine if the courses are appropriate to their professional competence development needs

CPE Course Development and Updates: Webinars offered by Valuant for CPE credit will be developed and taught by individuals or teams having expertise in the subject matter. Such expertise will have been demonstrated through practical experience and/or education. All courses will use activities, materials, and delivery systems that are current, technically accurate, effectively designed and will contain the most recent publication, revision or review date. Courses will be reviewed annually (or more frequently if necessary due to the subject matter) by a qualified individual or team, other than those who developed the programs, to consider currency of the content, technical accuracy, attendee evaluations, and anecdotal feedback. The participation of at least one CPA will be required in the development of every program in accounting and auditing. Such reviews will occur before the first presentation of a course and again after each significant revision.

Content Objectives: The primary learning objective is to maintain or increase the competency of participants through expert discussion, explanation and interactive questioning. The workshops and programs are designed for learners to exercise a practical understanding of new and current issues, as well as the latest changes, in a complex and continually changing industry. Learning activities will be based on relevant learning objectives and outcomes that clearly articulate the knowledge, skills, and abilities that can be achieved by participants in the learning activities.
